Nickelodeon's Teenage Mutant Ninja Turtles™: Secrets of the Sewer

Children and their families (and fans of all ages!) are invited to join the team and train alongside the Teenage Mutant Ninja Turtles and Master Splinter in their underground lair, where good guys win and bad guys lose! During training, families explore their individual and group potential, training as a team both physically and mentally before taking on the villains of New York City for an action-packed adventure. The ninjas-in-training master new skills in teamwork, collaboration, and problem-solving as they work their way through puzzles, mazes, and obstacles.

While exploring the environments, children and their families will:

- Learn the value of hard work, focus, and practice in the Dojo and Master Splinter's room while engaging in various physical and intellectual challenges.
- Explore the lair's common area and discover the individual skills each Turtle brings to the team such as leadership, creative problem-solving, speed, and humor!
- Test their Teenage Mutant Ninja Turtles knowledge in trivia games and discover hidden scenes from the Turtle lair.
- Test their own reflexes, balance, and creative building skills in a variety of hands-on or full-body activities.
- Try their hands at creative problem-solving, as well as learning from mistakes in Donnie's lab while strategizing through challenging puzzles and mazes.
- Put their new skills into practice on the streets of NYC as they help the Turtles crack codes, maneuver through a back alley rope maze, ward off bad guys with a pizza thrower, and work together to drive the shell-raiser back to the sewer lair.

"Together, there is nothing you cannot accomplish." —Master Splinter
